HOW WE WORK

A Panel Discussion With

Carole Rosen, Presenter

Paul Cooper, Hope Igleheart, Jane Kupersmidt, Discussants
Loveleen Posmentier, Moderator

For our fourth program in the *How We Work* series, Carole Rosen will offer a detailed discussion of her ongoing analysis, via Skype (interactive webcam and voice system over the internet), of a Chinese patient in Mainland China. Carole has been working in Chinese with her patient for almost three years. In presenting this case, she will show how the unusual Skype frame, how the analyst working in a second language and how the patient's language and socio-cultural-political context all play a role in the treatment. Throughout, Carole will demonstrate the psychoanalytic stance she has maintained in her thinking about the case and in conducting the treatment. Discussants will engage in a dialogue with the presenter followed by audience participation.
